Dauphinais Concrete
120R Berkley Street
Taunton, MA 02780

Dear Mr. Dauphinais,

Clean Air Taunton is a group of citizens concerned with air pollution throughout our city. We work to make sure the voices of the community are heard and that we all have access to safe, clean environments and healthy air in our neighborhoods. We are concerned about community residents who have joined us and expressed difficulties in remediation of problematic practices at your facility. Due to those concerns and your proposal to build and store gas tanks on-site, we attended the Zoning Board of Appeals hearing on January 25, 2024, at 6:00 p.m. to voice opposition to your proposal. When denying your proposal, the ZBA referenced your lack of outreach to the community that your property impacts. Several of us spoke with you outside of the hearing hoping to start communication and set up a meeting.

We are reaching out today to ask you to take the advice of the ZBA and the concerns of residents and meet with us. We hope you will take this opportunity to begin repairing your facility's relationship with residents.

Thank you,

Clean Air Taunton: A group of concerned citizens associated with Clean Water Action, the Coalition for Social Justice, and Slingshot.
